About

Hi, I'm Golfo, a Front-End Developer and member of the Greek Free/Open Source Software Society (GFOSS). I love brainstorming, pitching ideas and finding solutions and I have no problem integrating technologies I am unfamiliar with and learning along the way.

Most of my positions(including my current one) were fully or partially remote, and it's evolved to my favourite way of working. I am currently practicing my skills with the help of FreeCodeCamp.

Job Experience

- 2016-Current** **E.Liaskos Engineering** Patras, Greece (Remote)
Scripting and Technical Support for Automation Systems.
- Sep-Oct 2015** **FOSS Centers of Excellence** Athens, Greece (Contract, Remote)
